**Narrative Description of Services Provided**

## **NARRATIVE SUMMARY OF SERVICES RENDERED**

All of the professional services that K&L Gates LLP (“KLG”) rendered as Special Counsel to the Debtors during the Compensation Period are segregated by matter pursuant to Local and U.S. Trustee Guidelines. As described in the Application,<sup>1</sup> KLG was engaged as Special Counsel to continue representing the Debtors in a number of ongoing Special Matters. In the context of describing the Special Matters, the Narratives occasionally describe events that occurred prior to the Petition Date and/or during a prior post-petition compensation period. The fees sought in this Application, however, correspond exclusively to post-petition work performed during the Compensation Period. A description of services performed appears below, by each matter.

### **A. E.U. Competition Counseling**

1. During the Compensation Period, KLG advised Westinghouse Electric Company, LLC (“WEC” or the “Company”) regarding a published decision by the European Commission on Competition (the “Commission”) regarding the merger of the EDF Group (a French nuclear electric power generation company) and Areva (a French multinational nuclear power and renewable energy group), pursuant to which the former acquired the latter’s nuclear reactor business.

As described in the First and Second Interim Applications, KLG was engaged by the Company to work on this Special Matter after the SEC issued an administrative subpoena to WEC’s ultimate parent company, Toshiba Corporation (“Toshiba”), and its related U.S. entities, including WEC. KLG was retained to provide litigation support because of KLG’s institutional knowledge of WEC and its operations and also because of the extensive experience that KLG’s e-Discovery Analysis and Technology (“e-DAT”) practice group has with WEC’s document management systems and related policies and procedures.

4. As previously explained in the Second Interim Application, KLG was able to work with the SEC to secure an agreement to defer testimony by the Debtors’ witnesses until at least April of 2018, in recognition of the competing demands on such witnesses from the ongoing complex bankruptcy process.

5. In the interim, KLG continued to review documents and prepare for testimony

should the SEC reach out to KLG to schedule dates for testimony. KLG also conducted additional legal research based on additional understanding of the government's potential theories of liability and developments in the law.

6. Further, KLG reviewed a significant amount of documents subpoenaed by the SEC from third parties related to the Company to ensure that the confidentiality afforded by the attorney-client privilege and/or attorney work product doctrine was maintained.
